Weigh masters report - June 2015

The last weigh report for the year, so hopefully this one makes it to you.

The scores haven't changed much this season but there has been some movement in recent weeks.
We now have a couple of competitors in the Female section, Toby Mason has continued to chip away at Jack Clarke's score in the Juniors and there has been some subtle score changes at the top of the Male section with RT starting to tag a couple of fish to close the gap to Justo's score.
Hopefully we will see a bit of competition in the last few weeks of the season. There are definitely no sections where we have a clear winner and whoever wants it most will win. Get out there and have a crack!!!

On top of that, the individual species section prizes are largely vacant still.
The vacant sections (as below) are HPS Sportfish other, HPS Lutjanus/Coral Trout, HPS Shark and HPS Fish on Fly.
You may only need to weigh an average fish to win the great prize in any of these sections. Have a go as it would be a shame to see these sections make it through the whole year vacant….
